WATERPROOF LOLLIPOP MIN/MAX THERMOMETER

Use the Waterproof Lollipop Min/Max Thermometer to verify dishwasher temperature, ensuring that your cookware and dishes have been properly sanitized. The thermometer is completely waterproof for repeated commercial dishwasher use. It can be used where steam or condensation is a problem, or it can be completely submerged into water.

With minimum and maximum memory capability, it will record the lowest and highest temperature reached from last reset, between -58°F to 392°F (-50°C to 200°C) and is accurate within $\pm 1^\circ\text{F}$ ($\pm 0.5^\circ\text{C}$). This waterproof instrument is an ideal food service thermometer for HACCP compliance.

- Waterproof housing completely submersible.
- See-through probe cover with pocket clip on backside.
- °C/ °F selectable.
- Min/Max reading memory.
- Can be field calibrated.
